As you may recall, ECHA received a FOIA like request for their meeting notes and emails about tire crumbs. A few of those emails involved their communication with us about sharing our experiences and a couple of meeting agenda. I asked for them to let us know what company made the FOIA like request and they granted my request. It looks like [REDACTED] is the company who made the request. See attached for the letter [REDACTED] sent them requesting information about the tire crumb study. Feel free to share with other federal partners if you think it is relevant or let me know and I am happy to do it.

Monica
